## Protective Isolation Face Shield

DeltaTrak's Protective Isolation Face Shield helps prevent transmission of COVID-19 by offering full coverage (from forehead to chin) against saliva droplets. It is highly transparent and includes an anti-fog coating that greatly improves visibility. With its sturdy and lightweight shield, it can be worn for a length of time and easily cleaned throughout use. The foam padding provides additional forehead comfort during long-term wear.

- Comfortable forehead padding

SS\_57026\_20G1

## Schools

The face shield provides sturdy protection and high transparency and visibility for teachers as they interact with students during classroom activities.

## Clinics

Ideal for shielding medical and office staff during patient check-ins and/or examinations. High visibility and transparency allows for improved patient interaction.

## Food Service

Provides safety and coverage for service staff when interacting with customers. The strong anti-fog coating allows for clear view of customers which helps improve the customer service experience.
